

**CUMBERLAND FOREST
COMMUNITY FUND**
People. Nature. Economy.

Cumberland Forest Community Fund
Grant Application Guidelines

Deadline: March 29, 2021

Funded by the Cumberland Forest Limited Partnership
Administered by The University of Virginia's College at Wise (UVA Wise)

**Cumberland Forest Community Fund
Request for Proposals (RFP)**

I. PURPOSE AND BACKGROUND

The purpose of the Cumberland Forest Community Fund is to fund the design, implementation, and management of a competitive local grant program to support nature-based economic and community development in seven counties in Southwest Virginia (Wise, Russell, Tazewell, Dickenson, Buchanan, Lee, Scott, and City of Norton). The program will solicit proposals and then select and provide funding to projects and initiatives that produce “triple bottom line outcomes.” Triple bottom line outcomes include tangible contributions to: (1) local economic development (e.g., jobs, visitor spending, lodging taxes, etc.), (2) increased community capacity (e.g., green infrastructure investments, outdoor recreation/tourism capacity building, strategic planning, creation of local policies/conditions that enable nature-based economic development, etc.), and (3) enhanced environmental quality (e.g., benefits to land, water, and air quality).

Projects must be consistent with the program goals and objectives outlined herein. Projects that include physical assets must locate those assets on either private or municipal lands. \$100,000 in funding, provided to UVA Wise by a grant from the Cumberland Forest Limited Partnership (managed by The Nature Conservancy), is anticipated to be made available to eligible applicants.

II. APPLICATION SUBMISSION

Eligible applicants must submit one copy of the grant application form for each project proposal. An electronic version of the application is located at the UVA Wise Oxbow Center website (<http://www.oxbowcenter.com/communityfund>). Hard copy applications must be sent to the following address:

**UVA Wise
Office of Economic Development & Strategic Initiatives
ATTN: Kelly Moody
1 College Avenue
Wise, VA 24298**

**Contact: Kelly Moody, UVA Wise
Phone: (276) 220-5728
Email: kmoody@uvawise.edu**

Each application must be accompanied by the budget narrative form. An application will be deemed incomplete without a complete and accurate budget attachment. Accompanying letters of support are encouraged but not required (see page 8, Letters of Support), as well as any additional documentation including but not limited to maps, site plans, permits, etc.

Applications must be postmarked by **March 29, 2021**. Electronic and hand-delivered applications must be received by **5:00 PM on March 29, 2021**. Incomplete or late applications will not be considered.

These guidelines along with additional information surrounding the grant program are posted on the UVA Wise Oxbow Center website. Please contact Kelly Moody if you have questions on the application process, eligibility requirements, or contents of this RFP.

III. ORGANIZATIONAL BACKGROUNDS

The mission of The Nature Conservancy (TNC) is to conserve the lands and waters on which all life depends. The vision of TNC is a world where the diversity of life thrives, and people act to conserve nature for its own sake and its ability to fulfill our needs and enrich our lives. TNC works in all 50 states and more than 35 countries—protecting habitats from grasslands to coral reefs. TNC is guided by science and addresses threats to conservation involving climate change, fresh water, oceans, and conservation lands. TNC pursues non-confrontational, pragmatic solutions to conservation challenges, partnering with communities, businesses, governments, multilateral institutions, and other non-profits. TNC's Clinch Valley Program, established in 1990, works collaboratively with local communities to support sustainable economic development and recreational opportunities that are consistent with protecting the region's lands, waters, and way of life. NatureVest is the in-house impact investing team at TNC, working with colleagues and conservation collaborators around the world to source and structure investment products that support TNC's mission at scale.

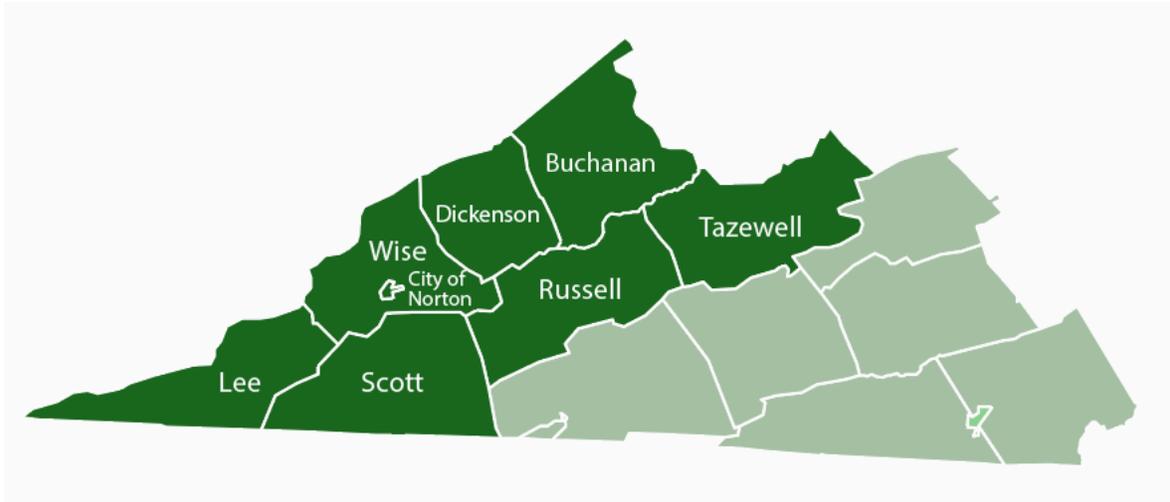

In 2019, TNC and NatureVest announced the formation of the Cumberland Forest Project and the acquisition of more than 250,000 acres in the Central Appalachian Coalfields. The Cumberland Forest Limited Partnership owns the land, while TNC serves as the manager of the lands and the Limited Partnership. To support economic diversification in the Coalfields region, the Cumberland Forest Community Fund has been established as a new grant program designed to provide resources to compelling local projects that support economic diversification, community development, and environmental stewardship.

The University of Virginia's College at Wise is a public, four-year liberal arts college located in Wise, Virginia. Established in 1954 as a college of the University of Virginia, the institution is guided by the values of citizenship and altruism. Proud of its Appalachian heritage, the College continues to honor its commitment of service to Southwest Virginia, the nation, and the world. The College's Office of Economic Development & Strategic Initiatives supports the surrounding region by connecting the wealth of resources available at the University of Virginia and partnering organizations to opportunities in Southwest Virginia; linking the community to faculty, staff, and students; serving as a source of professional and leadership development; and supporting the economic development community.

IV. ESTIMATED TIMELINE OF KEY DATES

February 15, 2021 — RFA Announcement
March 29, 2021 — Application Deadline
May 2021 — Announcement of Awards Anticipated
June 2021 — Begin Issuing Grant Agreements
July 2021 — Awarded Projects Should Be Underway

V. MAP OF THE GRANT PROGRAM AREA

VI. GENERAL GUIDELINES

Program Eligibility

The grant program is open to individuals, for-profit businesses, non-profit organizations and municipalities that have or intend to have a significant operating presence in the outlined eligible counties. Eligible applicants must provide a valid federal ID number. The project idea may be an original business concept or an extension of a current business activity, product, service, community capacity building program, or social venture.

Partnerships and Letters of Commitment

Partnership projects are encouraged between eligible applicants. **However, there can only be one designated project applicant named on the grant application.** If the project involves a partnership, the designated project applicant is considered to be the one eligible applicant designated as the lead applicant. If the designated project applicant ultimately receives a grant award, that applicant will be required to assume the responsibility for entering into a contract with UVA Wise and will be responsible for any subcontracting associated with the project. Letters of commitment from collaborating partners must be provided at the time of application.

Letters of Support

Relevant letters of support from stakeholders are encouraged to strengthen the proposal. Letters of support must be provided at the time of application.

Available Funding

For this particular grant period, UVA Wise anticipates that \$100,000, received as a grant from the Cumberland Forest Limited Partnership, will be made available.

Matching Funds

This grant does not require the applicant to provide matching funds. The grant award may fund up to 100% of a project's costs. However, advantage will be given to grant applications that demonstrate a commitment to provide additional deliverables using other funding sources (see page 6, Grant Selection Criteria).

Project Completion

Recipients of grant funding will be notified of an official grant award via a letter of award from UVA Wise. An award agreement (grant contract) must then be finalized between the grantee and UVA Wise. Work on the awarded grant project may begin once the grant contract is fully executed. The grant contract will include a project scope of work, performance timeline, project budget, and standard contract clauses. Costs incurred by an applicant prior to the date of an award letter will **not** be eligible for reimbursement.

Accessibility

Projects must comply with applicable laws requiring accessibility, e.g., State and Federal laws, the Americans with Disabilities Act, the Americans with Disabilities Act Accessibility Guidelines, and ABA Accessibility Guidelines for Outdoor Developed Areas (36 CFR Part 1195).

Ground or Waterway Disturbance

If applicable to the project, applicants must determine to what extent, if any, ground or waterway disturbance will be involved in the proposed project (such as for clearing, grading, installation of underground utilities, etc.). Submit any maps or site plans that show the areas to be disturbed, along with a description of applicable best management practices that will be used to minimize environmental impact. Additionally, provide details on any required local, state, or federal permits, including a status update on the project's efforts to obtain those permits.

Ownership

If the applicant or a partner is not the owner of property involved in the proposed project, the applicant must secure the landowner(s) support. The landowner must stipulate that he/she will enter into a legally binding agreement (e.g., public easement or signage easement) with the applicant if there is not one already in place, if necessary, to ensure access to improve or maintain the property throughout the life of the project. The application must be accompanied by either a letter of support from the landowner or a copy of said legally binding agreement. The applicant may be required to enter into a legally binding agreement with the landowner before entering into a contract with UVA Wise.

Additional Requirements

All projects must comply with the Uniform Fire Prevention and Building Code, the State Labor Law, and the Workers' Compensation Law and any other applicable State, Federal or Local laws.

Reimbursement

Grant funds may be used for the following costs:

1. Direct salary costs for applicant employees while working directly on awarded project, including personal service salaries and fringe benefits. Fringe benefits are limited to 15% of direct salary costs for applicant employees while working directly on awarded project.
2. Direct non-salary costs, including costs for printing, photocopying, travel, materials, supplies, equipment (including rental), consultant, and contractual services, legal, and other goods and services directly associated with the project.

The following will not be paid with grant funds:

1. Indirect or overhead costs of the municipality, such as rent, telephone service, and general administrative support.
2. Salaries and other expenses of elected officials, whether incurred for purposes of project direction, execution, or legislation.
3. Costs of preparing the grant application.
4. Costs associated with planning and design not integral to project implementation.

Grant assistance requested not to exceed 100% of cost.

Recognition of Funding

Recipients of a grant will be required to communicate that project funding was provided through the Cumberland Forest Community Fund. This acknowledgement will be provided by UVA Wise and The Nature Conservancy and required in any communication with the public, which includes plans presented to the public, press releases, and any other marketing and signage funded by the grant.

VII. PROCESS FOR REVIEW AND SELECTION OF PROJECTS

Pre-Review

All applications will first be reviewed according to the following:

1. The application presents a nature-based economic and community development project or initiative that produces a "triple bottom line outcome." Triple bottom line outcomes are tangible contributions that:
 - Improve local economic development (e.g., jobs, visitor spending, lodging taxes, etc.)
 - Increase community capacity (e.g., green infrastructure investments, leadership development, outdoor recreation/tourism capacity building, strategic planning, creation of local policies/conditions that enable nature-based economic development, marketing and promotion, etc.)

- Enhance environmental quality (e.g., benefits to land, water, and air resource quality)
2. The applicant is an eligible business, non-profit, or municipality. Eligible applicants must provide a valid federal ID number.
 3. The project is located wholly within the geographic boundaries of the Virginia counties Wise, Russell, Tazewell, Dickenson, Buchanan, Lee, Scott, or City of Norton.
 4. The application was received or postmarked by the application deadline.

If the answer to any of the above is “no,” the application will not be considered eligible for further review or evaluation.

Review and Scoring

If the answer to all the above is “yes,” the application meets eligibility criteria and will be further evaluated and scored by a review panel. The review panel will evaluate and score all eligible applications using the grant selection criteria identified in the next section of this RFP.

Grant Selection Criteria

While a proposal must meet all criteria of the pre-review, a successful proposal is not expected to meet all of the following grant selection criteria. Each element will be evaluated to assess the degree to which the application meets the grant selection criteria and effectively meets the goals of the grant program.

Economic Impact

How does the project generate a positive economic impact (e.g., increased revenue, tax base, jobs, etc.) in the grant-eligible counties?

Environmental Impact

How does the project enhance the condition of land and water resources; promote sustainable use or enjoyment of natural resources, scenic aspects; and/or promote outdoor assets within the grant-eligible counties?

Community Impact

To what extent does the project increase community capacity for supporting the expansion of natural asset-based economies (e.g., green infrastructure investments, outdoor recreation/tourism capacity building, strategic planning, creation of local policies/conditions that enable nature-based economic development, etc.)?

Regional Collaboration

Does the project promote regionalism and strengthen collaboration between communities in the counties of Wise, Russell, Tazewell, Dickenson, Buchanan, Lee, Scott, and City of Norton?

Regional Strategy Alignment

Does the project build on previous community planning and economic development activities by implementing an objective from an existing Southwest Virginia strategic plan? If yes, which ones?

Strategic Partnerships

Does the project have one or more partners (municipalities, businesses, not-for-profit or volunteer organizations) with skills and capabilities that will contribute to and improve the final product?

Program Demand

Is demand for the program backed up by data in the application?

Budget/Match

Is the project budget cost effective, accurate, well-balanced, and reasonable? Does it leverage other private and public sources of money (not required)?

Milestones & Deliverables

Does the application demonstrate a strong plan for tracking progress and outcomes, as well as quantifiable metrics?

Capacity to Execute

Does the application demonstrate the ability/capacity of the organization to meet the proposal's objectives and fiscal management responsibilities?

Sustainability

What is the life of the project past the grant period?
